

Poly-Char 2026  
(Smart, Sustainable & Data-Driven Polymeric Materials:  
From Molecular Design to Circular Applications)  
November 22-25, 2026 @Chiang Mai, Thailand

## Invited Speakers

### Jianyong Jin

University of Auckland, New Zealand

**Jianyong Jin** is an Associate Professor in the School of Chemical Sciences at The University of Auckland. He received his BEng in Polymer Materials Engineering from Dalian University of Technology, an MSc in Macromolecular Science from Fudan University, and a PhD from Clemson University (USA) in 2005. His recent and notable research contributions include: (1) the synthesis of intrinsically microporous polymers, (2) “living” polymer networks, (3) the concept of post-synthetic modification of polymer networks, and (4) polymer 3D/4D printing. As of December 2025, he has authored over 80 peer-reviewed publications, two book chapters, and has one edited book currently in press.
