

Keynote Speakers

Philippe Zinck

University of Lille, France

Philippe Zinck studied material science at the National Institute of Applied Science in Lyon and at the TU Berlin (1990-1995). He received his PhD in Polymer Science from the National Institute of Applied Science in Lyon in 1999. He is currently a full professor at the University of Lille.

His research interests focus on catalysis for functional and sustainable polymers, including Coordinative Chain Transfer Polymerization (CCTP) and chain shuttling polymerization, polymer carbohydrate coupling, the design of new biobased monomers and polymers and plastic recycling.
