Invited Speakers

Daniele Mantione

University of the Basque Country (UPV/EHU), Spain

Daniele Mantione earned his B.Sc. and his M.Sc. in Chemistry in 2013 from the University of Pavia (Italy), then he obtained his Ph.D. in 2017 at the UPV/EHU (Spain) supervised by Prof. David Mecerreyes and Prof. Haritz Sardon, defending a thesis regarding PEDOT-derived materials for bioelectronics. He was awarded by the Royal Spanish Society of Chemistry the accessit prize for the best polymeric thesis in 2018 and he received the prize for a Young postdoctoral researcher in 2021. After his PhD, Daniele carried out post-doctoral studies at the University of Warwick (UK) and Bordeaux (France), and, thanks to an MSCA (Spain), then, he was able to continue his passion in organic synthesis and conductive polymers. Since January 2023, he joined POLYMAT as a post-doctoral researcher, thanks to an Ikerbasque fellowship and a Ramon y Cajal fellowship, where he is currently working.
