Invited Speakers

Guoming Liu

Academy of Sciences, China

Guoming Liu studied Polymer Science and Engineering and got his Bachelor's degree from Sichuan University in 2006. He received the Ph.D. degree on Polymer Chemistry and Physics from ICCAS in 2011. Since then, he worked in ICCAS as an assistant professor (2011-2014), an associate professor (2014-2019) and professor (2019-). He is a Newton International Fellow of the Royal Society and worked in the Cavendish Laboratory from Sep. 2016 to Sep. 2018. His research interests include polymer crystallization, structure-property relationships of polymers, and scattering methods.
