Nattakan Soykeabkaew

Mae Fah Luang University, Thailand

Nattakan Soykeabkaew received her D.Phil. from Queen Mary University of London, UK in 2007. She is currently an Associate Professor of Materials Science at Mae Fah Luang University's School of Science and the Director of the Center of Innovative Materials for Sustainability (iMatS). Her most recent research has focused on functional cellulose-based materials, nanocomposite coatings, advanced fiber-based packaging, and recycling of cellulosic wastes. So far, over 50 articles have been published on the following topics: “cellulose-based composites”, “nanocellulose modification”, “bionanocomposite coating”, and “high barrier molded pulp packaging”. She has over 2,800 citations, with a personal h-index of 22 (Google Scholar).
