Keynote Speakers

Suwabun Chirachanchai

Chulalongkorn University, Thailand

Suwabun Chirachanchai obtained his Ph.D. in Applied Fine Chemistry Polymer Engineering from Osaka University and has been a faculty member of The Petroleum and Petrochemical College, Chulalongkorn University, since 1995. His research focuses is in the field of polymer modifications, biopolymers, structure-property relationship for development on advanced polymeric materials. He has authored more than 130 research articles and contributed to 10 book chapters. He has received numerous International and National Recognitions, including SPSJ International Polymer Scientist Award, NRCT High-Potential Research Team Grant Program Award, NRCT Senior Scholar Award, NSTDA-PTT Chair Professor Award, NRCT Distinguished Researcher on Chemical and Pharmaceutical Science, Distinguish Professorship Award, etc. He has served as the President of Polymer Society of Thailand, and currently serves as Head of the Center of Excellence in Bioresources to Advanced Materials, Chulalongkorn University, and President of Rubber and Elastomer Technology Association of Thailand (RETA).
